## Message from the President

I am pleased to begin my second term as President of the ESOY Board of Directors. As always, we have exciting things planned.

This year the board has a goal of increasing the Corporate memberships, so please consider changing your individual membership to the Corporate status. Each Corporate membership includes two individual memberships, having your firm's logo on the monthly newsletter, and two free meeting tickets. As always, we encourage student memberships, and for \$5.00 annually, it is probably the least expensive professional membership locally available. All applications have been sent with this newsletter, and are available on our website.

We are updating the website ([tesoy.org](http://tesoy.org)) to include corporate member links, e-payment options, and to generally make it more user-friendly.

We have a great list of monthly presentations scheduled this year, including a tour of the new Civil Engineering building at York College (October 22--sign up soon), visiting the Yorktown Hotel during its renovations, and a follow-up visit to the I-83 Exit 18 project, which was very popular last year in its early stages. To satisfy our geologic curiosity, we have a spring meeting planned at the RHI Magnesita facility. See the full list in this newsletter.

Don't forget to remind those high school seniors interested in pursuing an engineering degree to submit an application for one of the four available Edgar Kable Scholarships. These applications are due in March.

Feel free to e-mail me at [azmoda@gtaeng.com](mailto:azmoda@gtaeng.com). See you at the next meeting...

Andy

## **Society News**

The York engineering community lost a significant member when Larry Moore passed away on August 6th after a battle with cancer. Larry served on the Board of Directors of both ESOY and PSPE for many years and was in attendance at the ESOY Board's planning meeting on July 9th.

Larry was born in York on November 10, 1942. He retired as a structural engineer for LSC Design of York and founded Larry Moore Engineering in 2009, where he was currently working.

Larry leaves a wife Pamela, a son Tim, and a daughter Stephanie.
