## *Weldon Solutions Facility Tour*

Please join your fellow ESOY members at 5:30 PM on Monday, November 18, 2019 for a facility tour of Weldon Solutions, an employee-owned manufacturer in York, PA that can trace its roots back to the Flinchbaugh family in the 1890's. Weldon began to focus on the design of Cylindrical Grinders in the 1970's. This was followed by the development of Robotic Automation capabilities almost twenty years ago. With a 40,000 square foot purpose-built engineering and manufacturing facility, opened in 2009, Weldon is poised to maintain a leadership role in process and automation technology.

Weldon's CNC Grinders are known around the world for their robust design and ability to maintain tight part tolerances. Customers in the transportation, aerospace, medical and ceramic industries, along with many others, have come to rely on Weldon's equipment and on-site technical support to meet high production of complex parts.

The Weldon's engineering staff and assembly technicians are committed to leading edge design of manufacturing equipment that allows customers to improve profits and productivity in a safe environment.

Please respond to Greg Gromicko at [greg.gromicko@powereng.com](mailto:greg.gromicko@powereng.com) no later than Friday, November 15, 2019 regarding your attendance either with or without dinner.
