THE ENGINEERING
SOCIETY OF YORK
Established 1910

We enjoyed a beautiful fall evening on our tour in October when we visited the Richard M. Nixon County Parks Wetland Mitigation site. We toured the two plus acres of wetlands which were created at the Park to replace the wetlands removed as part of the I-83 Exit 18-Mount Rose Interchange Project.

Prior to this project, the road leading to Nixon Park was periodically damaged during large flood events and had large, eroded banks. This project helped control the footprint of the stream and helped slow the waters down to reduce the movement of sediment.

Thank you to Mike Fobes, the York County Parks Director, for an informative tour!

Our Next Function**Monday, November 16, 2020*****Kinsley Fabrication Tour*****KINSLEY®**

Join us on Monday, November 16, 2020, for the third membership meeting of the 2020-2021 program year for the Engineering Society of York and a tour of Kinsley Fabrication.

Kinsley's Steel Division specializes in structural steel design, engineering, detailing, fabrication, erection, and retrofit of existing structural members for clients across the mid-Atlantic region. Our team is AISC and PCI Certified, and is a PennDOT Bulletin 15 fabricator. We take pride in our ability to provide clients with a full range of structural steel services through our four shops in Pennsylvania and Virginia where we fabricate over 60,000 tons of structural steel each year.

Start: 5:00 PM

Address: 3900 E Market St, York, PA 17402

Due to the ongoing restrictions associated with gatherings and COVID-19, registration will be capped at a total of 25 people for this event. While this event is FREE to all members and guests, we will NOT be gathering for our social event after the meeting and dinner will NOT be offered.

Remember to bring your mask and observe social distancing recommendations at all times.

Please RSVP by close of business Friday, November 13 to jwagner@kinsleyconstruction.com
