THE ENGINEERING
SOCIETY OF YORK
Established 1910

We had a very informative September meeting as we toured the new Pumping Station at Lake Redman. The program started with a review of the infrastructure that supports York Water Company's operations at Lake Redman, Lake Williams, Brillhart Station and the Susquehanna River/Long Level back up pump works. We learned about the levels of redundancy that guarantee our water supply here in York as well as the future plans to maintain a safe and secure water supply. We toured the pumping station where 700 HP pumps distribute water from the lake to the filtration plant located at Reservoir Park on Grantley Road and were treated to the employees of the York Water Company utilizing the high pressure compressed air connection on the Lake Redman intake pipe filter screen to clear the screen...and drown any local kayakers on the lake!

Nixon Park/PennDOT Wetlands Mitigation Site Tour

RICHARD M. NIXON COUNTY PARK

Join us on Monday, October 19, 2020, for the second membership meeting of the 2020-2021 program year for the Engineering Society of York and a tour of the Richard M. Nixon County Park Wetlands

Mitigation site. More than two acres of wetlands were created at the park to replace wetlands removed as part of the I-83 Exit 18 – Mount Rose Interchange Project.

Crews were used to help a stream form into a pattern with good access to the flood plain, which slows the water down and reduces the “flashiness” of the floods. It also helps to move sediment in a natural way so that these will not be huge eroded banks. The public can walk through the area on a boardwalk and bridge to see species such as dragonflies, butterflies and breeding frogs. Mike Fobes, the York County Parks Director, will be our presenter.

Please be prompt as the tour is scheduled for 5:00 PM. Directions to the wetlands site is as follows:

From York, follow S. George St. through Jacobus to Valley Rd. Turn right, follow road .8 mile to bottom of hill; turn right onto Nixon Dr.; go one block and turn left onto Nixon Dr. continue toward the park. There is a parking lot along Nixon Dr. at the wetlands, on your left.

Due to the ongoing restrictions associated with gatherings and COVID-19, registration will be capped at a total of 25 people for this event. While this event is FREE to all members and guests, we will NOT be gathering for our social event after the meeting and dinner will NOT be offered.

Remember to bring your mask and observe social distancing recommendations at all times.

Please RSVP by close of business Thursday, October 15 to JSeitz@consulttrg.com
