THE ENGINEERING
SOCIETY OF YORK
Established 1910

Our April meeting was held at the soon to open Keystone Kidspace. Huge thanks to Jessica Brubaker for the engaging tour!

Keystone Kidspace plans to open in the fall of 2021 in the former York Armory Building, a Late Gothic Revival brick fortress built in 1913. They are presently in the final stages of construction, mixing new amenities with much of the original components of the 1913 Armory. The Keystone Kidspace will offer a mash-up of science, technology and arts giving kids (ages 6-15) permission to get messy, tinker, experiment and create. (Boy, this sounds like they are creating Engineers!)
