THE ENGINEERING
SOCIETY OF YORK
Established 1910

For our September meeting, we took a fantastic tour of several Royal Square Development projects in downtown York. We concluded at Granfalloon's Tavern with a tour of their improvements and dinner.

Through innovative development and construction services, Royal Square Development & Construction aims to positively impact the way people live and work. RSDC boasts hundreds of renovations and multi-million dollar projects in South Central PA. We continue our work to restore and revitalize the City of York while also growing beyond the city limits to serve clients' construction needs across the region.
